OUR MODERATORS:

Emily Rothenberg:
Program Coordinator for the National Student Data Corps, hosted by the Northeast Big Data Innovation Hub

Florence Hudson:
Executive Director, Co-Principal Investigator, of the Northeast Big Data Innovation Hub

OUR PANELISTS:

Mayank Varia is an Associate Professor of Computing & Data Sciences at Boston University. He teaches and researches cryptography beyond computer science. Mayank deploys privacy-respecting systems in practice with a focus on transparency, as well as characterizes the tradeoffs between data privacy and data utility.

Steve Horne is the Chief Data & Strategy Officer at Bridge, a premier data-driven marketing company that prioritizes data timeliness and accuracy of all data providers in the marketplace. He helps companies connect with real people in order to best learn a customer's work lifestyle, purchase intentions, needs, and passions.

Vivien Bonazzi is the Chief Biomedical Data Scientist and Managing Director at Deloitte. With a passion for understanding how data science methods can yield a better understanding of biology, her work focuses on being able to share, access, and analyze biomedical data, so as to enable new discoveries.

Yu Yu is the Director of Data Science at BlackRock. Yu Yu leads a team of data scientists and software engineers to generate sales and service for clients. Her team is driven to develop data science foundations in new domains, driving early-stage research and commercial value from high-potential areas.
