OUR MODERATORS:

Emily Rothenberg:
Program Coordinator
for the National Student
Data Corps, hosted by
the Northeast Big Data
Innovation Hub

Sanket Bhandari:
Graduate Student at
Columbia University and
Project Coordinator
at Northeast Big
Data Innovation Hub

OUR PANELISTS:

Emily Javan is a PhD Candidate and Researcher at The University of Texas at Austin. She is broadly interested in disease spread within human and animal populations, as well as how vaccination and wildlife management can prevent epidemics. Currently, she is researching how access to healthcare changed during the pandemic.

Gianmarco Gabrieli is a Pre-Doctoral Researcher at IBM Research. Having studied Micro- and Nanotechnologies for Integrated Systems, Gianmarco applies his knowledge in the Impact Science & Technology department, developing AI-assisted chemical sensing technologies for rapid fingerprinting of complex liquids.

Dr. Kobi Abayomi is the Senior Vice President - Data Science at Warner Music Group (WMG). With 20 years of experience researching, publishing, consulting, and leading in-house data science teams, Dr. Abayomi leads analytics globally across WMG, driving valuable business insights and broadly maximizing success for artists.
